

Remarks:

This amendment is submitted in an earnest effort to advance this case to issue without delay. The examiner has indicated that the case contains allowable subject matter.

The specification has been amended to eliminate some minor obvious errors. In addition the drawing has been cleaned up and resubmitted. No new matter whatsoever has been added.

Claim 19, which originally depended via claims 16 and 17 on independent claim 15, has been found to contain allowable subject matter. Accordingly the features of claims 16 and 19 have been inserted into claim 15. The features of claim 17 have not been added to claim 15 as they do not relate significantly to the inventive features of claim 19. Claims 16, 19, and 33 have been canceled and dependencies have been corrected as necessary, making claims 17, 18, 19-29, and 32 allowable.

Claim 31, which originally depended via claim 30 on independent claim 15, has also been found to contain allowable subject matter. Accordingly, the features of claims 15 and 30 have been inserted into claim 31, making it independent and allowable.

Thus all the claims in the case are allowable and the application is in condition for passage to Issue.

If only minor problems that could be corrected by means of a telephone conference stand in the way of allowance of this case, the examiner is invited to call the undersigned to make the necessary corrections.

K.F. Ross P.C.
